

Disposable Protective Covering

Material Specification:

EZcover™ by McTech Group, Inc. is a natural colored cellulose fabric designed to help protect slab-on-grade or other flooring during the construction process. The product is available in standard width 8' rolls weighing approximately 100 lbs each with each roll covering approximately 400 square feet on application.

Application:

Install EZcover™ Protective Covering material as per manufacturer's written instructions. Place EZcover™ Protective Covering on surface in widest practical width after surface has sufficiently dried or cured. Immediately repair any holes or tears, which may occur during the product application or afterward. Cover the entire interior surface area as needed to aid in prevention of surface damage. If surface contamination occurs, remove the affected area of the blanket and replace with a new portion of the product. Continuous inspection for the purpose of maintaining 100% protective covering contact with surface is recommended after initial application.

Physical Properties- EZcover™

Property	Value	ASTM Test Method
Basis Wt.	1200 g/sm	ASTM D-2103
Caliper	3.18mm	ASTM D-5199
Tensile	TD-8100 psi MD-8800 psi	ASTM D-8882
Dart	2300 g	ASTM D-1709
Reflectance	81%	ASTM E-1447
